

ODIN Engineering A/S

New preferred partner for
Binar Quick-Lift Systems in Denmark

From February 1 2018 ODIN Engineering A/S is
our new partner for service, spare parts and installation
of our products in Denmark.

ODIN Engineering A/S designs and manufactures
special-purpose machines.
They also carry out a range of repair and
installation assignments. With years of extensive
experience from the industry and as a renown supplier of
high-quality products and services, they are an
excellent addition to the Binar Quick-Lift team.

With their own fleet of service cars and personnel
they are able to quickly assist you with technical support
in time of need.
